With the sweet twist of the perfect amount of chocolate and the ease of being able to be made at home, this hot chocolate was ranked the highest with a score of 9.5/10.

This hot chocolate was very rich; however still tasted very good and was very easy to make. You definitely have to be a hard core chocolate lover to indulge in this 8/10 hot cocoa.

This cocoa was by far the best in taste; however, the drive as well as the 20 minutes it took to make the drink made it a little inconvenient. It still managed to obtain the second highest rating of 8.5/10.

This hot cocoa sadly did not live up to the expectations that it holds. Scoring only a 5/10, this overpoweringly chocolate drink wasn't worth the drive and money spent.

This hot cocoa was mediocre at best. It wasn't to die for but also wasn't terrible. It was very grainy and the chocolate taste was very light. Overall, I give this drink a 6/10.
